When are you looking to bring a puppy home?

\_\_\_\_\_

Are you prepared to go on our master waiting list for a future planned litter?

( requires 20% of reservation fee due)

\_\_\_\_\_

Our line of ALD's only goes into season every 8-9 months. Therefore waiting for a puppy could potentially be close to a year if none are currently available. Please consider this before filling out our application form. Thank you!

Do you understand that when contacted for a placement on a planned litter, the remainder of the reservation fee becomes due?

\_\_\_\_\_

Placements on reservation lists are filled when a planned litter is given the all clear to move forward and mother dog seasons. Pre-Paid Waiting list applicants are contacted in order of applications received.

Have you read and understand our selection process?

Here at Bluevale Meadows, we want to ensure that each of our puppies goes to a perfect match for their forever home. Please fill out the following field to ensure we get just the right puppy for you.

\*Though we work off a reserve list based on who placed deposit first, second and so on, we are working with pups from day one, 24/7 and have in our opinion, the best analysis of each and every pup. We do a final assessment on temperaments at 7 weeks of age of pups and highly recommend

which puppies would best suit you and your family. We want our puppies to succeed in life, and this means pairing them with the right family.
